* orders issued on this office are
* void.

Mr. and Mrs. J. R. Halsey departed on last Monday evening's train for Los Angeles. Mr. Halsey will talk up the resources of Mohave county and will undoubtedly accomplish good results.

Andy Hance has returned to Mohave county. Andy knows no place where so much money can be made with as little effort as in this favored land.

John Suter, roadmaster on the division west of Needles, brought several tons of rich ore to the Kingman sampler from Ludlow a few days ago. He claims to have a big showing of ore in his property.

Henry Lovin was over to Todd Basin several days this week looking after his mining interests. He has an excellent property and has made other promising locations. Henry is a fair way to become a millionaire.

Pete White and J. N. Cohenour returned Tuesday afternoon from the Big Bend of the Colorado river, where they have been mining for a number of weeks past. Mr. Cohenour has opened up a good vein of copper ore and will return later in the year and do considerable development.

The firm of Withers & George has this week dissolved partnership. J. S. Withers retiring. Ira M. George will continue the business. Mr. Withers will probably engage in mining in future. The old firm was a most popular one and we predict for Mr. George a successful future.

A shooting between two braves of the Wallapai tribe took place at Peach Springs last Saturday evening, in which one of the bucks was shot through the back and severely wounded. The shooting was the outcome of a game of cards three years ago, in which a squaw lost a horse and failed to deliver the goods. The squaw's buck demanded the horse or another in place of it and, being refused, proceeded to shoot up the camp. A brother of the squaw came on the scene and shot the shooter through the back, the bullet coming out below the left breast. Deputy Sheriff Wilson went to Peach Springs and arrested the successful and unsuccessful shooters and brought them to Kingman. They were both discharged by Judge Collins last Wednesday.

Last Sunday evening there died at Needles one of those characters that are seldom found even on the frontier and whose early life was given to make the western reserve habitable to the white man. Among the old timers of Arizona he was known intimately. Daniel O'Leary was scout and Indian fighter. He came to Arizona when the lives of white men were unsafe and his work as scout and fighter went far to bring about the conclusion of peace in the early '60s. After the Indian wars had subsided he settled down to peaceful pursuits. He had many mining interests and a considerable herd of cattle at the time of his death. He was a gentle and kindly man and among those who knew him his demise will be sincerely mourned. He was about 70 years of age at the time of his death and was a native of Ireland. His funeral took place Monday in Needles.

Mrs. William Eshom, of Cienega ranch, is in Kingman visiting relatives.

James Kenny, of Chloride, was in Kingman Thursday and took in the opera.

O. F. Kuencer has been surveying the Midnight mine at Chloride this week. Patent will be applied for.

The mother and sister of J. F. and Ed Phelan arrived in Kingman Wednesday from Williams. They will remain in Kingman.

Ed Thompson is carrying a water main from his big tank to his business place on Front street and will carry acetylene gas to his residence from his plant down town.

Judge W. G. Blakely and Harry McComb have returned from Los Angeles, where they were called on business connected with the affairs of the Midas Mining company.

H. H. Watkins arrived from Los Angeles last Wednesday morning. He reports that the exposition is getting things well under way, but many exhibits were still incomplete.

We learn that a cyanide plant will be installed on the stocking Bird mine, Weaver district, within a few weeks. About 1000 tons of tailings will be subjected to the cyanic treatment.

C. O. Anderson, of the Holbrook Argus, was in Kingman yesterday. He has been looking over the field at Chloride with a view of starting a republican paper there. Come right along, Bro. Anderson.

It is claimed that James Penberthy has opened up a gold property on Burro creek that gives big returns. Ores from the mine will be worked in the mill soon to be erected near the mouth of Burro Creek.

Barney Perkins brought a prisoner over from Chloride Wednesday afternoon and lodged him in jail on a commitment from Judge Brakeman. He will be allowed a small amount of "dope" for the next forty days.

Messrs. Dubois, Jobert, Rowland and Otis, of Santa Ana and Temple Bar Consolidated Mining companies, arrived in town after a long absence at Temple Bar, having finished the first series of experiments being made on the properties of said companies.

R. G. Eekis, a well known mining operator, arrived from Los Angeles on last Sunday morning's train. He has on the road machinery for a cyanide plant, which will be installed at the Dolly camp, near Cottonwood island. There are about 1500 tons of tailings to be treated that are said to carry high values in gold.

Micky Dolan, the irrepressible, is in clover. He has a city in the Harcour range named after him and is the owner of a group of gold mines, carrying average values of 22 in gold. Micky is growing old and losing much of the buoyancy of youth; a scrap to him now is not what it was a few years ago and we expect to see him settle down in peaceful, contented old age.

Dr. I. B. Hamilton, who is operating in Mohave county mines, has, according to the San Francisco Examiner, just concluded a deal on the famous Cherokee Flat hydraulic mine, from which 13,000,000 have been taken. The deal involve the payment of 250,000. Dr. Hamilton has associated with him wealthy Pittsburg and Philadelphia capitalists. Dr. Hamilton has bonded a number of the best mines in the Wallapai mining district of this county and has a force of men at work on them at present. Mr. Lawrence, an experienced mining man, is associated with Dr. Hamilton in his mining ventures in this county.

The government last year coined 15,000,000 silver dollars and 9,000,000 half dollars. The coinage of gold amounted to 111,000,000.

James Mulligan, of Cerbat, is in Kingman.

Tom O'Brien has gone to Los Angeles on business.

James Rosborough has gone to Los Angeles, where his wife is very ill.

George Miller, of Hackberry, was in Kingman Thursday last on business.

Quite a force of miners are at work on the Big Bethel mine in Todd Basin.

A good streak of ore has been cut in the William Jennings Bryan mining claim, on Stockton Hill.

S. P. Thompson has returned to El Paso, Texas, but may remove his family to Kingman in the near future.

Mrs. J. P. Finegan, of Chloride, visited with Mrs. George A. Bonelli this week and took in the Brehany opera.

W. E. Frost and family, of Wallapai Springs, were in Kingman Thursday last and enjoyed the Brehany opera.

Judge Sterry, of Los Angeles, is here in his private car. He is interested in the Midas Mining company and is having a consultation with stockholders.

Another strike has been made in the Rip Van Winkle ground of the White Hills Mining company. The ore is said to be wonderfully rich, but its extent is unknown.

Paul Maguire came in from the W. J. Bryan mine at White Hills Thursday last, having had one of his legs injured in the mine so badly that he has to use a crutch.

G. W. Beecher and wife departed on last Monday afternoon's train for Los Angeles, where Mr. Beecher will arrange Mohave county's mineral exhibit at the exposition.

Henry Lovin and George Austin have opened up a nice body of gold ore on the Hill-side mine, Todd basin. Specimens of the ore show plenty of free gold and many of them are really beauties.

Thomas McNeely came in from Wallapai mountain last Monday. He reports that the ore in the old Wheeler claim is showing up splendidly and that the mines on the mountain give great promise for the future.

John Cross, accompanied by D. Tooker, a well known mining expert, was in Kingman a few days ago. They have been looking over the mines of San Francisco district and are well pleased with the outlook.

J. S. Kolar and F. A. Pomeroy have returned from the placer fields of the Coarse Gold Mining Company. The sands in the deep gravel are now showing up well in fine gold. Two men are at work on the mines sinking shafts.

Several Chloride people took in the opera in Kingman Thursday. Thomas McNeely reversed the usual order of things. Heretofore he came over to all dances and Hank Lefler came to all the shows. This time Hank staid at home.

K. R. Kasper, representing the Mining and Scientific Press, was a pleasant caller at this office yesterday. Mr. Kasper is representing the foremost mining journal not only in America but, as far as our own knowledge goes, in the world.

Harvey Hubbs and By Collins returned from Boundary Cone last Saturday night. They brought with them a magnificent specimen of ore from the Snowball mine, owned by F. L. Smith and G. W. Koster, which will be placed on exhibition in Los Angeles. They were both well pleased with the mines of the Treadwell group, owned by Smith, Koster and Hubbs.

The person who borrowed our new, six-foot stepladder will please return it at once.

The CALIFORNIA ROSE CO., Los Angeles, Cal., are headquarters of the coast for nice field grown ROSE BUSHES. All the latest and best sorts. Send for a catalogue today.

Louise Brehany Opera.

Thursday evening the Louise Brehany opera company made its appearance in Kingman and played to a crowded house. The company was one of the best that ever appeared in Kingman. Miss Brehany has a magnificent voice of wide range. Her rendition of "Home, Sweet Home" showed her wonderful voice to perfection. Miss Monroe, the contralto, sings with much expression and her voice is sweet, clear and steady. The tenor and bass could have been improved on, but when it is considered that they were entertained the night before by the Prescott Elks little wonder need be expressed that their voices had jagged edges. Miss Schmoll, the violinist, and Prof. Saule, the pianist, enraptured the audience with their performances. The performers received repeated encores.

The stage was artistically decorated and the effect was very pleasing. The local lodge of Elks spared no pains or expense to give the public their money's worth and they succeeded wonderfully well. We hope this will not be the last of these pleasant entertainments to be given under the auspices of this order this winter.

Ura Lockhart, the eleven year old child of Mrs. Ella Lockhart, of Flagstaff, died at Long Beach, California, last Thursday, of dropsy. The little one had been ill a long time and her death was not unexpected. The body was brought to Kingman last night and the funeral will take place from the Harrington House this afternoon. Mrs. Lockhart resided in Kingman a few years ago and the deceased child went to school here.

From the records in the district clerk's office we find that there will be very little business at our April term of court. Some of our attorneys will probably not be as hard pressed for time as they were at the last term, unless they are still busy on propositions of dividing our county, in which they may have an "empire" by themselves.

It is estimated that there is 250,000 worth of ore in sight in the De La Fontaine mine, Stockton Hill. The mine showed but little ore on the surface, but at a depth of 200 feet a body of lead eleven feet wide has been cut.

Glorious News

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved, that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by H. H. Watkins, Druggist. Guaranteed.

Hackberry Celebrates.

Washington's Birthday was celebrated at Hackberry in an enthusiastic manner. Cowboy sports of all kinds were indulged in by the people congregated from all parts of the county. In the roping contest there were twenty entries. John Harris roped his steer in 46 1/4 seconds; Fred Miller in 50 1/4 and R. Chamberlain in 55. The purses were \$38, \$30 and \$20.

There were three entries in the horse race, Crozier's horse carrying off the purse of 100. The track was sandy and heavy but the horse made the wonderfully fast time of 23 seconds for a few yards under the quarter. A race between horses owned by George Selser and Fred Miller was won by the former horse. Considerable betting was indulged in. Over five hundred people were present at the race track.

In the evening a delightful dance was indulged in by the people. Today the people will be treated to more fun.

Mrs. J. C. Potts, Mrs. Mackenzie, Misses Lillie and Millie Wilson, Asa Harris, Harvey Hubbs, C. G. Clark, Mr. Carpenter and many others of Kingman went up to the Hackberry carnival on the 22d. They all report having had an enjoyable time.

The drouth this winter is terrible on the stock interests of Arizona. Mohave county has not had a drenching rain in nearly a year, and as the summer rains are of no importance in the matter of grass production, we expect to hear of a big death rate among the herds in this section before the warm months of summer have gone.

The populists are again in turmoil. The middle-of-the-roads have seceded from the conservative wing of the party and have set up housekeeping for themselves.

L. Lentzinger and wife have moved into the Perry residence on Pine street.

When you want a physic that is mild and gentle, easy to take and pleasant in effect use Chamberlain's Stomach and Liver Tablets. Price, 25 cents. Samples free. Every box guaranteed. For sale by H. H. Watkins.
